Added Money Side Pots Paid Each Game

At the start of each evenings bowling, one SHOOTER will be randomly chosen from all the side-pot participants. The SHOOTER will bowl one ball on a random lane and the house will add money to the side-pot based on the number of pins down—if the shooter strikes, we will draw an additional shooter. We will pay multiple places for 1st, 2nd, and 3rd games and high series in 2 divisions—on average 10-12 different bowlers win each night.
